playfit®

MORE SAFETY – MORE VALUE FOR YOU

Tested safety & quality

All playfit® devices meet the applicable requirements of DIN EN 16630:2015 for location-bound outdoor fitness equipment and are individually approved and **certified** by TÜV Süd.

In addition, all playfit® devices carry the **GS mark** for 'Tested Safety', i.e. **devices and production** are additionally tested, approved and **certified** by TÜV Süd in accordance with §20 of the Product Safety Act (ProdSG).

playfit®

LONG-LASTING + SUSTAINABLE

Resource conservation through ease of maintenance and servicing.

'Resistance to aging' and 'ongoing maintenance' are economically decisive factors and crucial for **profitability over the entire service life of the equipment.**

playfit®
for the quality of life

Wirtschaftlichkeit ist mehr als nur der Preis

✓ Qualität ✓ Sicherheit ✓ Nachhaltigkeit ✓ Service

playfit®

EXPERIENCE COUNTS!

With around 3000 locations in Germany and abroad, playfit® has very in-depth knowledge and experience.

Go and visit outdoor-fitness parks – regardless of manufacturer and locations which have been in place for some years – and see for yourself.

Ask the site operators about the **service quality of the equipment manufacturer.**

Remember: true cost-effectiveness is not only reflected in the purchase price.

CONCLUSION

- ✓ playfit® uses high-quality and sustainable materials that stand for durability and reliability.
- ✓ High-quality products last longer: This saves money in the long run.
- ✓ Our products are subject to strict testing and controls.
- ✓ Quality products offer better performance, comfort and reliability. This leads to high user satisfaction.
- ✓ Our warranties and customer-friendly service create additional trust in our products.
- ✓ Quality + sustainability save resources!
